Vision

People will travel in space and time,
they will regenerate our Planet,
they will live to a hundred and twenty years,
they will use that other 90% of their brain,
and we are here to make it happen.

Mission

Our mission is to support the creation of Deep Tech startups that will generate value for society and economy, steering them towards a model of sustainable progress based on science and technology, by leveraging on **Politecnico di Milano's ecosystem**.

We work with the best Innovation Makers

Startups & Scaleups

We select **new ideas** from the **Politecnico di Milano** and other Italian and international universities to support the birth and development of **Deep Tech** startups through **technology transfer** programs.

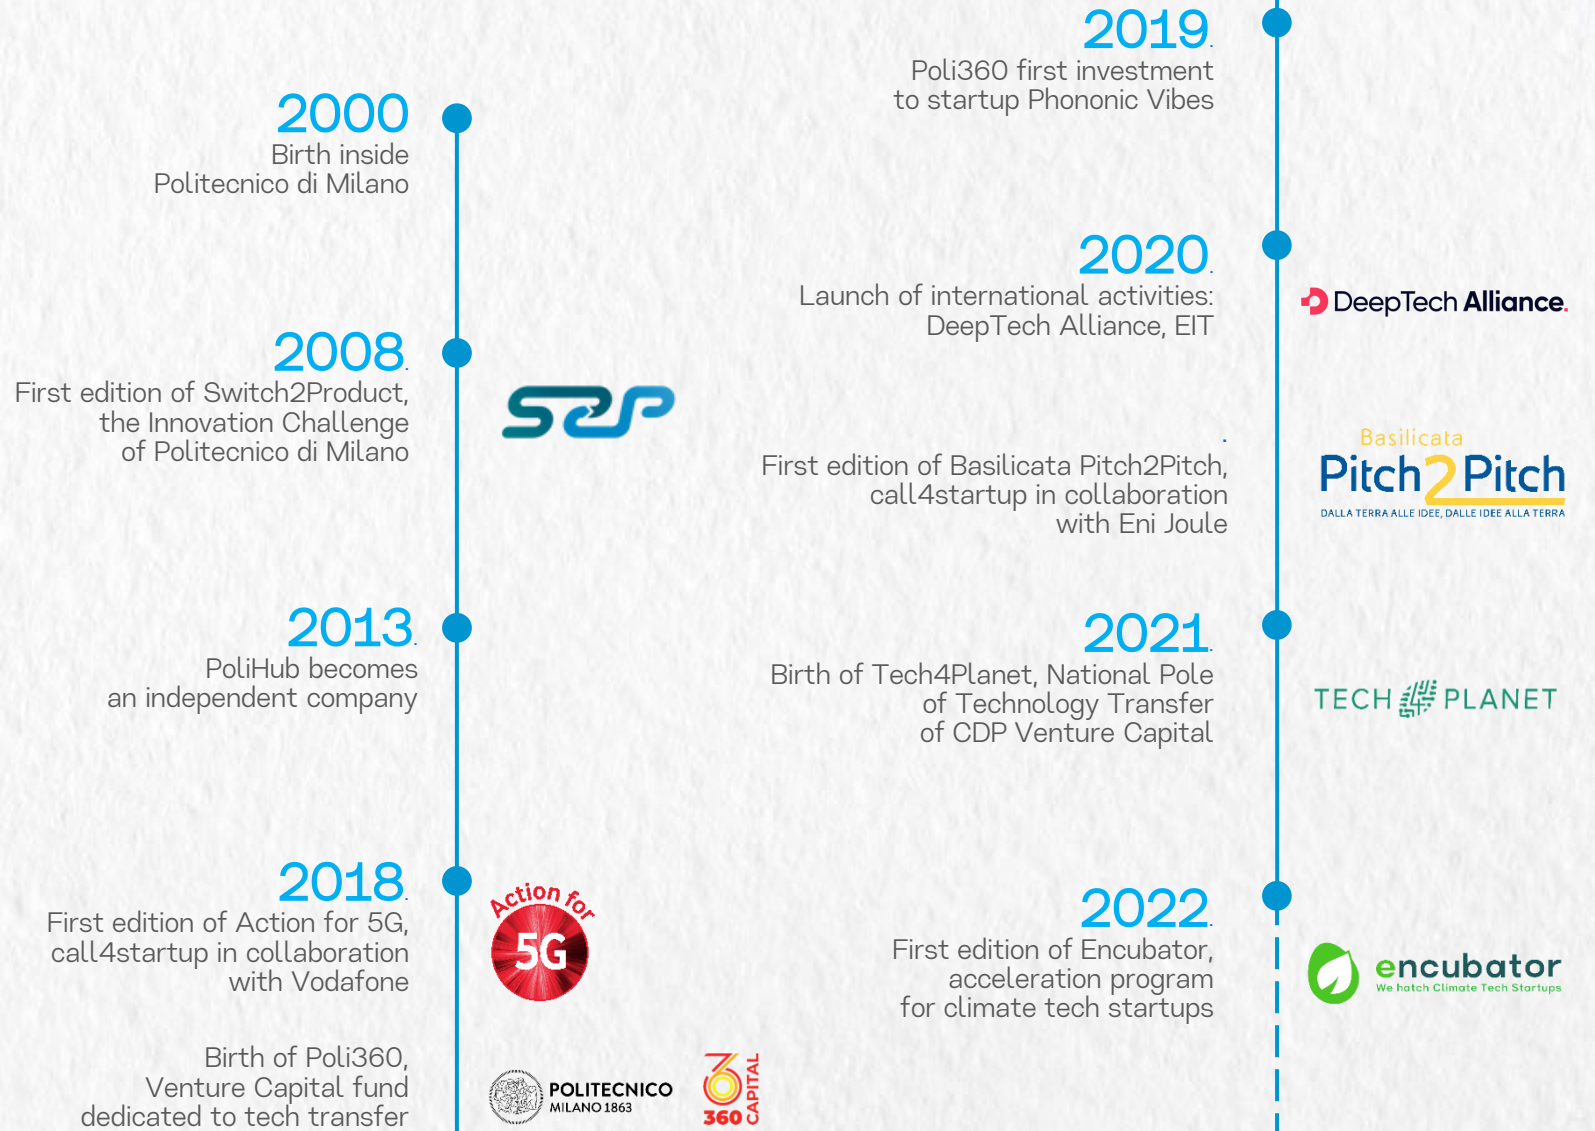

Corporates

We support companies in exploring **new products, services, and business models** through **collaborations with startups** in PoliHub ecosystem.

Investors

We collaborate with a network of **investors, business angels, and venture capitalists** interested in establishing connections with **Deep Tech** startups in the context of **early-stage development** investments.

COWORKING AND OFFICES

A photograph of three men wearing Microsoft HoloLens augmented reality glasses. They are standing in a row against a light blue wall. The man on the right is in the foreground, looking slightly to the right. The other two men are behind him, also looking in the same direction. The image has a dark blue gradient overlay.

SCALE YOUR VISION

Our Acceleration Programs

ACTIVE ACCELERATION PROGRAMS

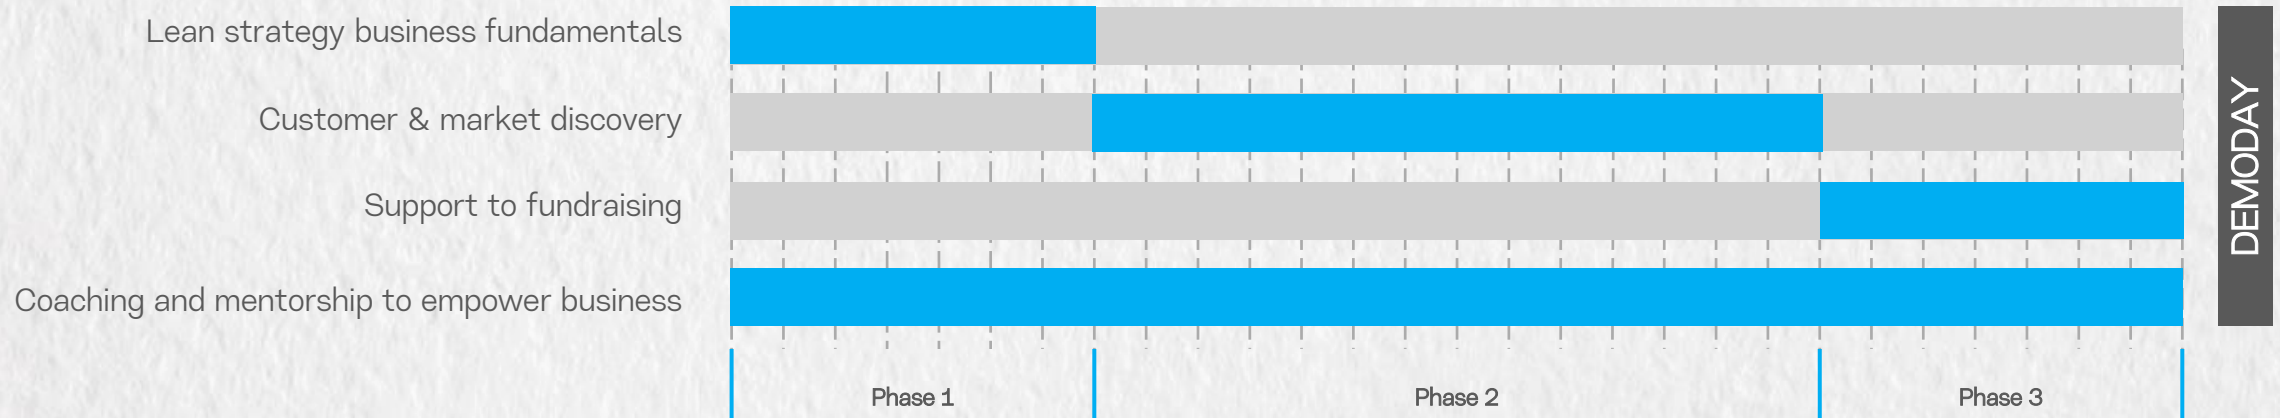

We have seven active programs designed to support early-stage startups with dedicated content tailored to specific topics.

How we help entrepreneurs succeed

STEPS AND TOOLS *OF OUR PROGRAMS*

Equity-free acceleration programs are designed for teams that are still in the pre-market phase, with the goal of supporting them in developing the right **entrepreneurial mindset** and deepening their knowledge of scalability, go-to-market strategy, product roadmap, fundraising strategies, and organizational development.
