

Call for Posters

After the success of the past editions, the IEEE Italy Section Women in Engineering Affinity Group presents the 5th edition of **GENEVA (Gender Equality in Research and Innovation)**, aimed at illustrating the best practices in managing "gender equality" within funded projects.

Organized by the IEEE Italy Section Women in Engineering Affinity Group, the poster session will take place on **July 6th**, from **14:30 to 16:30**, in the frame of the **IEEE EUROCON 2023** (<https://2023.ieee-eurocon.org/>).

Don't miss the chance, submit your proposal now!

Description

The session will be a poster presentation of projects in which the theme of gender balancing has been dealt with, from the more concise treatment to the systematic implementation of the Gender Equality Plan.

Contents

In order to encourage the recognition of similar projects and therefore with the objective that the projects presented can be understood as best practices, an overview of the project (topic, national / European call through which it was financed, resources in terms of budget, instrumentation and months / person required for the development of the project itself) is required.

With reference to the subject of gender balancing, the focus should be on:

- identification of potential critical issues;
- articulation of operational solutions to overcome the critical issues encountered (it is appropriate to highlight in this phase also possible action tools - structures / stakeholders / cultural organizations - reference that have supported the operational aspects);
- ex-post evaluation of the impacts (quantitative, also the possibility to access specific incentives for the promotion of gender and qualitative equity) also through synthetic indicators.

Submission Details

The poster proposal has to be submitted by e-mail to the organizers by **June 10, 2023**. Please report in the email subject "**GENEVA 2023**" and in the email body the following information:

- poster title;**
- poster authors list and affiliation** (highlighting the presenter);
- project details** (title, topic, national / European call through which it was financed).

An e-mail will be sent confirming the submission success. The digital version of the final poster must be sent by e-mail **before June 20, 2023**.

All submitted proposals will be included in the poster session.

Submission deadlines:

- **proposal June 10th**
- **digital final version June 20th**
